Year Ended March 31, 2016

# GOING FURTHER

その先の向こうへ

Since its establishment in 1896 in Kure city, Hiroshima prefecture, Penta–Ocean Construction Co., Ltd. has grown with society by contributing an enterprising, up–and–coming spirit and leading–edge construction technologies. Today, after our founding, a mentality of continually seeking challenges in new fields remains part of our corporate DNA. A spirit of accepting challenges that never varies, even as times change, and the power of flexible self–innovation to respond to the needs of each new era. At Penta–Ocean, we are never satisfied with things as they are, and we continue to move steadily forward, step by step.

## Penta–Ocean Construction Group and Our Stakeholder Engagement Model
